- 1.25% Organic Rosemary Oil
- 1.00% Organic Peppermint Oil
- 0.20% Organic Geranium Oil

Inactive Ingredients:

- 39% Deionized Filtered Water
- 0.20% Organic Lavender Oil

ABOUT EACH INGREDIENT:

Organic Soybean Oil

Essanté Organics uses certified USDA Organic, Non-GMO, Gluten Free Soybean Oil as the first ingredient in *Don't Bug Me! Bug Spray & Repellent* by design, because Soybean Oil is a powerful and proven bug repellent all on its own.

Scientific evidence shows Soybean Oil may provide longer-lasting protection against insects compared to other bug repellants without soybean oil. A 2002 study found Soybean Oil, on its own, protected against mosquito bites for an average of 94.6 minutes, much longer than other oils on their own. A 2004 study tested a repellent made with Soybean Oil. The study shows it protected against mosquito bites 5-7 hours longer than other options that did not contain Soybean Oil. A 2011 study used a group of essential oils mixed in Soybean Oil to test as a repellent against insects. The study shows Soybean Oil may be the best base to create insect repellent mixtures due to its inherent bug repellent properties.

Organic Oils of Lemongrass, Citronella and Castor Bean

The second, third, and fourth organic oils in *Don't Bug Me! Bug Spray & Repellent* are also highly protective, for extended periods of time, against mosquitoes, spiders, fleas and other insects, especially when mixed with Organic Soybean Oil (the first ingredient).

Organic Cedar Wood Oil

The fifth ingredient in *Don't Bug Me! Bug Spray & Repellent* is Organic Cedar Wood Oil, one of the most effective essential oils to repel and kill flies, gnats, ticks and moths.

Organic Rosemary Oil

The sixth ingredient is *Don't Bug Me! Bug Spray & Repellent* is Organic Rosemary Oil, one of the most effective essential oils to repel and kill mosquitoes, lice, flies, gnats, moths, ticks, silverfish and bean beetles.

the best essential oil to repel and kill weevils is Organic Cedar Wood Oil. This oil is in Essanté Organics *Don't Bug Me! Bug Spray & Repellent*.

WHY CAN'T THIS PRODUCT BE USED ON PETS? *Don't Bug Me! Bug Spray & Repellent* contains Lemongrass Oil and Peppermint Oil, which can be toxic to cats. It also contains Citronella Oil which, like chocolate and grapes, can be toxic to dogs. Consult your veterinarian and aromatherapist before using essential oils on animals. Their nervous systems are vastly different from the human nervous system.

CAUTION:

Do not use *Don't Bug Me! Bug Spray & Repellent* on pets. Keep out of reach of children. Supervise application on children. Do not swallow or spray near eyes or mouth. In case of eye contact generously flush eyes with water. May cause skin irritation in rare cases - test small area of skin first. Wash with soap and water and seek medical attention if skin irritation persists or if bitten or stung by an insect. Consult physician if pregnant. Consult your pediatrician and aromatherapist before using essential oils on infants and babies. Their nervous systems are still developing and thus not all essential oils are suitable for them.
